GSBCDC is reopening daycare under the following revised guidelines. These guidelines will supersede previous policies until further notice.

1. This registration will only be in effect till the end of the summer. Registration for the fall 2020-2021 will be available at a later date.
2. You will be billed weekly beginning on your requested start date unless you withdraw with a one week notice or use your vacation week if you are eligible. All accounts must remain current in order to remain registered for childcare. All previous financial agreements such as automatic withdrawals from your account or credit card, etc. will remain in effect unless you opt to change them in writing.
3. The classroom capacity will be no more than 10 children per class and less in some based on the DHR state ratio regulations for each age group.
4. At least temporarily, no children who are not on our current roster will be allowed to register.
5. Considering the difficulty of consistently implementing social distancing within childcare facilities the CDC recommends that each class should include the same children and staff each day. Each group will be self-contained and will avoid mixing of children on the playground and other areas.
6. Due to the self-containment of the classes, our facility will need to alter our hours of operation until further notice in order to avoid the early drop off room and the late afternoon room that mixes classes. Therefore, our new temporary hours of operation will be 7 AM – 5 PM in order to have each class fully staffed without having to combine classes at any time. This also means that the policy for late pick-up remains the same only based on 5 PM as closing time.
7. In order to limit direct contact between parents and other children and staff, a drive-thru drop off will be implemented. There will be signs directing you. Drop off schedule will be between 7 AM-8 AM. If you need special consideration, please let us know by calling the CDC office. Pick up will be drive-thru as well between 4 PM-5PM unless you call us ahead of time to have your child ready to meet you.
8. Temperatures of the children will be taken before entering the building and a series of questions asked of the parents concerning where they have been and who they have been in contact with. No child with a temperature over 99 degrees will be allowed to stay without a doctor's note. This temperature will be recorded when the parent signs in their child.
9. Absolutely NO SICK children will be allowed to be in attendance. The current health policy will be strictly adhered to with the exception of the following revisions that will be in effect until further notice in order to be more cautious in not spreading COVID-19:
 - a. A child showing any symptoms of a contagious illness such as but not limited to—fever of 99 degrees or higher, vomiting, diarrhea, common cold symptoms, croup, sore throat, fifth disease, impetigo, ringworm, hand, foot, and mouth, any unexplained rash, pinkeye, lice or just overall appears to be sick—the child will be isolated from the group immediately and the parents will be contacted to pick them up.
 - b. If your child is not allowed to stay or sent home due to illness, he/she must be kept home for 48 hours and be symptom free without the aid of medication before returning to childcare and will not be admitted without a notice from his/her physician stating that the child has been seen and/or treated and is no longer contagious and is able to return to and participate in the activities of the center.
10. In order to take every reasonable measure to prevent the spread of COVID-19, all staff will prioritize sanitization and develop a daily schedule for sanitizing all high traffic areas as well as frequently touched items and surfaces. Frequent hand washing with soap and water will be the preferred method.
11. All staff will also be required to wear face masks.
12. Staff who are at greater risk from COVID-19 will consult with health professionals to assess their risk of currently working with children.
13. All food will be eaten in the classrooms rather than gathering in the cafeteria.
14. All attempts will be made to keep your children in the same class with the same teacher that they were in prior to closing but some variations may need to take place.
15. There is a behavioral expectation which will be reinforced—for example: A) if a child bites more than one time, they will not be able to stay in childcare because of potential health hazards. B) Discipline will include time-out or contacting parents and repeat disciplinary issues may forfeit childcare privileges.
